

**Southeast Alaska Emergency Towing System Workgroup
Web/Teleconference Meeting**

Monday January 10, 2011

9:00am – 11:00 am

Web/teleconference information to follow

Background: The State of Alaska Department of Environmental Conservation has stationed Emergency Towing Systems (ETS) in Unalaska and in Kodiak. These systems are deployed to a disabled ship from the stern of a tugboat or airdropped to the ship's deck via helicopter. ADEC is in the process of prepositioning a system in SE Alaska.

Purpose of Meeting: Emergency Towing Systems - The purpose of the meeting will be to inform interested parties about emergency tow systems in SE Alaska and begin preparations for the May 2011 deployment exercise.

Workgroup members should review the project web site prior to the meeting at <http://www.nukaresearch.com/projects/seakets/index.htm>.
